

Why School Notepads?

They contribute to school spirit with your school logo, name, mascot, as you choose.

They are economical with a low upfront cost.

They are effective fundraisers because notepads are something that people already use regularly.

They need not be a one-time event because people will continue to need notepads. Hence, you can sell them on an ongoing basis to maintain funds year-round.

Selling fundraiser notepads is simple.

1. You may design your own or have us design it.

- To have us design your notepads, merely send us your logo and any other information you would like on the notepad.
- We will email you the design for your approval.

2. Choose the quantity.

- To start your campaign, we recommend that you order half as many notepads as you have students in your school.
- **EXAMPLE:** If your school has 600 students, you should easily be able to sell 300 notepads. You can order more as needed.
- It is likely that you will be able to sell many more than this, but we recommend that schools start with a low number and order more as they determine the actual demand.
- ***We accept school purchase orders*** or you can order through our web site and pay with credit, debit or other means via PayPal.

3. Sell the notepads.

- Use whatever methods that make sense in your context.
Here are some approaches commonly used by school groups:
 - i. Send students out with samples and take orders from fellow students, teachers, parents, grandparents, & friends.
 - ii. Set up a store in your school or during an event.

4. Order more as needed.

PRICING AND PROFITS: We have guidelines for pricing the products outlined on the following pages. You, however, set the actual price which parents, students, and teachers pay. How you choose to price them will impact how many you sell and the net profit.
